67% of Ohioans agree that congress should help community clinics provide affordable, comprehensive health services but giving money to the nation's largest abortion provider currently under investigations for the sale of fetal tissue from aborted babies is not the way to do that.

68% of Ohioans agree that tax payers shouldn't subsidize Planned Parenthood and Congress and State Governors should redirect that funding to the thousands of health clinics around the country that provide low cost comprehensive health care to women.

64% of Ohioans agree that Planned Parenthood, a billion dollar corporation that received more than five-hundred and twenty-eight million dollars in tax payer funding last year, should have their subsidies cut off by Congress and State Governors. Planned Parenthood can continue to operate using the almost seven hundred million dollars in annual revenue it receives from private sources.

More Ohioans **oppose** the Planned Parenthood Subsidy than support it.

Do you support or oppose Planned Parenthood being subsidized by receiving a half-billion American taxpayer dollars every year?
